

UCEAP Health Clearance Instructions for UC Davis Students

All students are required to obtain a health clearance to participate in UCEAP. Students who do not comply with this requirement *may be dismissed* from their UCEAP program.

You are responsible for following stipulated deadlines. The health clearance must be completed **by the application deadline in the Pre-Departure Requirements section of the UCEAP portal**. The health Clearance Process can take 1-3 weeks, so please begin the process in plenty of time to submit by the deadline.

Different countries may have different due dates and requirements for clearance, please find all mentions of your country of participation and follow all instructions. **Refer to the [UCEAP Health Clearance Instructions](#) to be sure you are completing all requirements.**

Instructions for Students with Special Needs

If you have any disability, or other chronic systemic condition for which you will be seeking accommodation abroad, you must advise your UC Davis Study Abroad Advisor immediately, so they can notify the UCEAP Systemwide Office (UCEAP). You will be required to have your UC Davis Student Disability Office send a memo to UCEAP indicating the nature of your needs. In light of varying circumstances at sites abroad, universities abroad will require this memo with sufficient notice for a request for accommodations to be fairly evaluated. Students may be required to secure funding and pay for certain accommodations. Students who disclose needs at the last minute, or who require accommodations that cannot be made available in the host country, may be advised to postpone participation or consider another site.

Be sure to review the “Students with Disabilities” item in the Pre-Departure requirements section of your UCEAP Portal.
